*** Brown Chemical is in the business of chemical distribution. At various times in the 1990's, Brown did business with Frey Industries in Newark New Jersey. Frey was used to package various bulk liquid virgin products for Brown as Brown did not have the ability to package certain products. Brown would arrange to have Products shipped from a manufacturer to Frey to be packaged. Brown would then pick up the product from Frey's location to be returned to Brown's site to be delivered to Brown's ultimate customers. In so doing, Brown would have supplied certain labels that said "Brown" and/or Brown drums that were already labeled as such. Therefore, on behalf of Brown, the only products that would have been packaged and transported would have been the product that Brown was selling/supplying in the quantities that Brown was selling.
